What this means

AlsterGlanz Reinigung already has a positive rating, but nearby competitors show far more visible social proof. The fastest practical improvement is a repeatable habit: ask satisfied real customers at the right moment and make the review link easy to use.

Recommended 30-day system

1	Create direct Google review link and QR card for handover after finished jobs.
2	Send a friendly WhatsApp or email request after the customer confirms they are satisfied.
3	Track requests in a simple sheet so the team knows who was asked and when to follow up.
4	Review progress monthly and adjust the timing, wording, and staff routine.

Ethical rule: only ask real customers for honest reviews. Do not buy reviews, offer rewards for positive reviews, or block negative feedback unfairly.
